Integrated Pest Management In Food Plants - 24th November, 2017 (Friday)	
8:00 a.m.	<i>AIB Registration & Introductions</i>
8:15 a.m.	Integrated Pest Management Strategies Understanding integrated pest management and how it works to identify, prevent and eliminate conditions that could promote or sustain a pest population. Learn about the different ways to resolve pest issues through identification, monitoring, non-chemical and chemical methods.
9:00 a.m.	IPM Strategies for Stored Product Insects and Structural Infesting Pests The most common insects encountered in food plants such as stored product insects, cockroaches and other structural pests have been selected for an in-depth discussion of their biology and behavior. With this information, discover how to best manage these pests using IPM strategies
10:30 a.m.	<i>Break</i>
10:45 a.m.	ENSYSTEX – Sponsor Talk “UV-A Light Traps – Important Aspects for IPM Programs and Future Trends”.
11.30 a.m.	IPM Strategies for Rodent Control An in-depth discussion of the biology and behavior of commensal rodents and how to best manage these pests using IPM strategies.
12:30 p.m.	<i>Lunch</i>
1:30 - 2.30 p.m.	IPM Strategies for Bird Control An in-depth discussion of the biology and behavior of common birds associated with food plants and how to best manage these pests using IPM strategies.
3:00 p.m.	<i>Break</i>
3:15 - 4.00 p.m.	(Continue)
4.00 p.m.	Questions
4.30 p.m.	Test
5:00 p.m.	<i>AIB Seminar Concludes and Certificate collection</i>

Signed up for the **AIB** internationally recognised Industry Standard **Food-Audit Certification Program** with emphasis on **Integrated Pest Management (IPM) Strategies**. **AIB Certificate** – to be issued for every Attendant (who passed AIB Test)
